

REDWOOD  
executive

Perfect balance of style and space.

 4  2  1  165m<sup>2</sup>  12m

The clever rotation of modules creates a striking design that twist and turns, explore a deceptively large home.

The Redwood Executive welcomes you through a timber porch and into the generous living room, dining and kitchen which encircle a large alfresco deck - seamlessly connecting the indoor and outdoor entertainment areas.

The central hub is framed by two separate wings of the house, each wing features two double bedrooms, complimented with a full bathroom.

The four bedroom and two bathroom design was created to provide a greater sense of space and meet the needs of today's family.
